

Public Records Request

In accordance with North Carolina General Statute 132-1, a public record is defined as *all documents, papers, letters, maps, books, photographs, films, sound recordings, magnetic or other tapes, electronic data-processing records, artifacts, or other documentary materials, regardless of physical form or characteristics, made or received pursuant to law or ordinance in connection with the transaction of public business...*

All requests for public records (other than Human Resources and the Police Department) should be made through the City Clerk. However, if individual departments receive requests, a copy of the request, along with the response, will be retained by the City Clerk.

If the information requested is not in the format requested, the City is not legally bound to provide the information in the format requested. The requestor can then either inspect the records or change the request.

Per NCGS 132-6.2(b), if a request is such as to require extensive use of information technology resources or extensive clerical/supervisor assistance, or if producing the record in the medium requested results in a greater use of information technology resources than that established by the City for reproduction of the volume of information requested, then the City may charge, in addition to the actual cost of duplication, a special service charge, which shall be reasonable and shall be based on the actual cost incurred for such extensive use of information technology resources or the labor costs of the personnel providing the services, or for a greater use of information technology resources that is actually incurred by the City. If anyone requesting public information believes the fee to be unfair or unreasonable, the requestor may ask the State Chief Information Officer or his designee to mediate the dispute.

A public records request is not continuing in nature. In the event additional records are created after the date of the requestor's original public records request, the requestor will need to submit a new request. Any records or portions of records made available by the City will be provided to the requestor in the same format as they are kept by the City. If a specific format is requested, that request will be granted if 1) it is determined that disclosable records exist; 2) the City is capable of providing the records in the format requested; 3) the format requested is reasonable, and 4) the requestor pays all fees required by this policy upon receipt of requested information.

The request will be considered complete upon 1) notification to requestor that the photocopies requested are available for payment and delivery; 2) requestor's inspection of the records; 3) or denial of request (with explanation as to why request cannot be granted).

Public Records Request Form

Information Requested: please be as detailed as possible (dates, subject, etc.) so staff can best provide the information you desire. Please print or write legibly.

I am requesting information about any code violations related to tall grass and trash/debris over the past 30 days.
